

SL-1 GREASE INJECTOR

Features

- Design for single-line high pressure automatic lubrication system.
- Suitable for dispensing grease compatible up to NLGI #2.
- Grease output is adjustable.
- Indicator pin allows convenient visual inspection of injector operation.
- Each injector can be removed easily for inspection or replacement.
- High quality single zinc-nickel surface treatment to achieve high corrosion resistance, to provide full protection in high corrosion environment.

Dimensions

No. of Outlet Port	1	2	3	4	5	6
L1 (mm)	-	-	32	63.5	95	126.5
L2 (mm)	63	77.5	109	140.5	172	203.5

Parameters
